

Hot Clay: Throwing Relaxed, Gestural Forms
Steven Hill
6/16/19 – 6/22/19

Materials to Bring:

- Bring all throwing, trimming and hand building tools you want to work with. Specific tools I suggest are:
- Kemper S4 Stainless Scrapper
- A large and a small red Mud Tools rib for slip application
- Curved rib for shaping bowls
- Slip trailing bulb if you have any interest in slip trailing. I prefer an enema syringe https://www.amazon.com/Rectal-Enema-Syringe-Gentle-Cleansing/dp/B00VEB5WUM/ref=sr_1_14_a_it?ie=UTF8&qid=1543888227&sr=8-14&keywords=enema+syringe
- Plastic wrap for covering pots. Many studios do not have decent plastic!

Your lab fee covers:

- Clay
- Firing costs
- Shared supplies
